Affordable Connectivity Program

The Affordable Connectivity Program (ACP) is a federal program designed to assist qualifying households assistance with their monthly broadband bills. The ACP is a $14.2 billion program created on December 21, 2021 as part of the Infrastructure Investment and Jobs Act, replacing the previous Emergency Broadband Benefit Program. A general flyer from the ACP is attached to this document.

Qualifying households can receive $30 a month subsidy through their Internet Services Provider (ISP) to offset the monthly cost. Our ISP partner is Axiom Technologies, who is administering this program. Axiom is not participating in other options of the ACP, such as the $100 equipment benefit.

The household first needs to apply and <u>qualify</u> for eligibility for the program through the ACP. To see if you qualify for the program, see here:

The ACP website apply for eligibility is here:

Note that if you qualify for the Federal Lifeline Program, you do not have to apply for the ACP benefit. See the above website for directions.

If the above application process qualifies your eligibility, you will receive an Application Approval Code.

At that point, contact Axiom Technologies at 207-255-0679, option 3. You will be requested to provide the Application Approval Code and they will enroll you in the program. Through your monthly bill through Axiom, you will receive a $30 credit on your monthly charges.

If you have any other questions or comments, do not hesitate to contact us at Terry@tdtsit.com.

Part of the goal of Georgetown Broadband LLC and Axiom Technologies is to get service to everyone on our island that desires it. We hope this program will assist us in achieving that goal.
