

# SELECT BOARD, TOWN OF GEORGETOWN

Agenda for Tuesday, June 10, 2025 at 6:00 pm

Hybrid meeting held via ZOOM for public and at the Town Office for SB Members who wish.

Please email [gtwnme@hotmail.com](mailto:gtwnme@hotmail.com) for the ZOOM login info.

\*indicates copy provided to Select Board

**\*INDICATES THE NEED FOR A MOTION TO APPROVE**

**Call to order:**

**Public comment:**

**Items to be added to the agenda (if approved by chair and board):**

**Scheduled appointments:**

- 6:15pm - Update from the Planning Board regarding the recent Short Term Rental Survey

**Minutes:**

- Minutes of May 27<sup>th</sup> Meeting for review and approval \*\*

**Review:**

**Assessing items:**

- Burgess Abatement Request (23 Hidden Cove Road, 11R-023-C)
  - Recommendation? To Assessor
- Pachowsky Abatement Request (2 Bayberry Lane, 09U-001)
  - Recommendation? To Assessor
- AMC Abatement Requests (144 Jewett Road, 01R-009) (Beal Island, 01R-034)
  - Recommendation? To Assessor
- Other Abatements Update

**Correspondence:**

- State of Maine – Department of Transportation – Upcoming Work\*
- State of Maine – Email with DOT – re: Road Plan\*

16 STATE HOUSE STATION  
AUGUSTA, MAINE 04333-0016

Janet T. Mills  
GOVERNOR

Bruce A. Van Note  
COMMISSIONER

May 28, 2025

Town of Georgetown  
P.O. box 436  
Georgetown, ME 04548

WIN: 029290.00  
Town/City: Georgetown  
Route: Route 127

Dear Property Owner:

The Maine Department of Transportation is considering a transportation project near your property. We are in the preliminary stages of the project and are actively gathering information for possible improvements to the East Bridge (#2248) over Robinhood Cove, located 0.02 of a mile west of Indian Point Road. We are collecting information from a variety of sources so we can consider all options and alternatives. This letter is to notify you that the project has been initiated and to ask for some specific information regarding your property.

At your earliest convenience, please complete the enclosed *Property Owner Report (POR)* and return it in the pre-paid envelope. If you would prefer to complete an electronic version instead, please send a request to the email address below. We understand that you may not have all the information requested but ask that you complete the POR to the best of your ability. Providing your contact information will help us keep you updated on the project and any public meetings that may arise.

Department representatives are actively surveying data along the roadway. Surveyors may need to enter your property to locate structures, property pins, wells, etc. You may also see representatives performing other necessary field studies. Since the project is in its preliminary stages, the representatives collecting data will be unable to give you project information of any final or official status. However, feel free to ask for identification or contact us if you have any concerns.

Once alternatives are analyzed and funding is available, the construction schedule for this project will be established. Our website can be accessed at [www.maine.gov/mdot/](http://www.maine.gov/mdot/), where project specific information will be posted as it becomes available, as well as various information related to our projects and procedures.

If you have any project related questions, please feel free to contact the Project Manager, Gerald Dostie, at (207) 624-3457. If you have any questions regarding the completion of the enclosed POR form, please feel free to contact me at (207) 441-9598. *Thank You* for your cooperation.

Sincerely,

*Willis Young Jr.*

Willis Young Jr.

Tyler,

I have sent an email to the Region 2 Manager and Engineer regarding your question about paving Rt 127 and especially your concern with the intersection of 127 and Seguinland Road. The Manager responded that the plan is to pave the road next year but he will ask the local crew to look at it to see if there is something that can be done to the really bad spot this year.

**MMA's Local Planning Boards & Boards of Appeal Workshop; Freeport-Don't Miss This!**

---

From Maine Municipal Association <training@memun.org>

Date Tue 6/3/2025 2:16 PM

To gtwnme@hotmail.com <GtwnME@hotmail.com>

[View this email in your browser](#)

**MAINE MUNICIPAL  
ASSOCIATION SINCE 1936**

***For New & Current Board Members!***

**LOCAL PLANNING BOARD & BOARD OF  
APPEALS WORKSHOP**

**Tuesday July 29**

**Freeport Hilton Garden Inn**

***Registration Open!***

**DATE, TIME, LOCATION and COST**

**Date:** Tuesday July 29

**Time:** \* Registration: 4:00-4:30 pm

\* Workshop: 4:30 pm - 8:30 pm

*(Dinner will be provided midway through the workshop)*

**Location:** Freeport Hilton Garden Inn  
5 Park Street, Freeport

**Cost:** MMA Members: \$70; Non-Members: \$140

**Presenters:** Breana Gersen, Staff Attorney - Maine Municipal Association  
Adelia Weber, Staff Attorney - Maine Municipal Association

## WHO SHOULD ATTEND

This workshop is a basic introduction to the rules and procedures governing municipal planning boards and appeals boards. It is designed primarily for new and less experienced planning board and board of appeals members. However, it is also a great refresher for long-time board members. Code Enforcement Officers and municipal officers may find this course helpful as an overview to the role of these boards in their municipalities.

## COURSE INFORMATION

This course is based on MMA's *Planning Board* and *Local Land Use Appeals Board* manuals. The workshop will cover material from the manuals, including how to conduct a board meeting, how to comply with Maine's Freedom of Access Act requirements pertaining to open meetings and public records, and the procedures for making a decision, such as how to evaluate evidence on which to base a decision and how to draft findings of fact and conclusions of law. The workshop will also cover the appeals process, including appeals to a board of appeals and to Superior Court.

## COURSE MATERIALS

A packet of workshop materials will be provided at the workshop. Participants are encouraged to review MMA's *Planning Board* and *Local Land Use Appeals Board* manuals for more information on the topics covered at the workshop. The manuals are available to purchase online at <https://ebiz.memun.org/PersonifyEbusiness/Store> or by calling the MMA Publications department at (800) 452-8786. The manuals may also be downloaded for free from MMA's website ([www.memun.org](http://www.memun.org)), under the "Legal" heading, click on "Legal Manuals".

**Click HERE to Register**

## MMA CANCELLATION POLICY FOR IN-PERSON WORKSHOPS & CONFERENCES

Cancellations received before 7-22-25 will be assessed a \$15 administrative fee for processing. Cancellations received on/after 7-22-25 will be charged 50% of the course fee. Any registrant who does not attend and does not cancel their

registration (i.e. no-show) and any cancellation received the day of the event will be charged the full registration fee. All cancellations must be submitted using this form:

### [Cancellation Form](#)

Registration substitutions are permitted for registrants within the same municipality/organization and will be assessed a \$15 substitution fee. Please email [wsreg@memun.org](mailto:wsreg@memun.org) to request a registration substitution. Registration transfers to a future training offering are not permitted.

If you have any questions, please contact the Educational Services Office at (800) 452-8786 or (207) 623-8428.

# MAINE MUNICIPAL ASSOCIATION **SINCE 1936**

Maine Municipal Association | 60 Community Drive | Augusta, ME 04330

MMA is located off I-95, Exit 112 A Northbound, Exit 112 Southbound, behind the Augusta Civic Center

1-800-452-8786 | Local Area 207-623-8428 | [www.memun.org](http://www.memun.org)

The Maine Municipal Association (MMA) is a voluntary membership organization offering an array of professional services to municipalities and other local governmental entities in Maine. MMA is a non-profit, non-partisan organization governed by an Executive Committee elected from its member municipalities. Founded in 1936, MMA is one of 49 state municipal leagues that, together with the National League of Cities, are recognized at all governmental levels for providing valuable services and advocating for collective municipal interests.

The Maine Municipal Association has a core belief that local government is a fundamental component of a democratic system of government. MMA is dedicated to assisting local governments, and the people who serve in local government, in meeting the needs of their citizens and serving as responsible partners in the intergovernmental system.

MMA's services include advocacy, education and information, professional legal and personnel advisory services, and group insurance self-funded programs.

Please find attached the May edition of THE RMS EXPRESS. The RMS EXPRESS is a publication of MMA Risk Management Services, designed to alert you to upcoming trainings, grants opportunities, coverage updates and general topics of importance. The RMS Express provides a quick window into the topics of today, and if you would like further information on any of the topics presented, all that you need to do is open the attached PDF and select the corresponding link and it will take you directly to the full articles and tools that are being presented. We hope that you find this tool helpful, and we welcome your suggestions and comments. For further information, to add members to the distribution or to send comments/suggestions, please contact me at [mballou@memun.org](mailto:mballou@memun.org).

# LEGISLATIVE BULLETIN

A publication of the Maine Municipal Association • Vol. XLVII No. 19 • MAY 30, 2025

## Preemption of Home Rule is Community Theft

Pierre-Joseph Proudhon made a meme worthy controversial statement in his “What Is Property?” query, arguing that private property is a form of theft because it allows individuals to exploit the labor and resources of others without contributing directly. He believed that the ability to profit from property without working or contributing to society was a form of exploitation and theft. Critics, such as the private property rights theorists, argue that private property is essential for economic freedom and individual autonomy.

This legislative session, however, it is easy to apply both the proponents’ and opponents’ arguments to Proudhon’s claim to the actions of the Legislature, who through the consistent erosion of the constitutional provisions of home rule, eagerly embrace exploiting the labor and resources of municipal government without contributing directly to the work, needs, or challenges in any way for the benefit of enabling feelings of accomplishment. More problematic is their willingness to do so claiming property rights over community rights and voices, largely via offmic discussions.

What follows is a smattering of the work proposed to be bestowed upon municipal officials by the Housing and Economic Development Committee this week as they pivoted to language reviews, reconsiderations and public performances for the benefit of social media posts. To characterize the committee’s recent activity as a convergence of municipal preemption and private equity influence, framed by an urgency to address housing challenges, would be a polite understatement.

**Growth Management.** The final work session on the competing bills seeking to amend the Growth Management Act—LD 1751 and LD 1940—revealed the influence of those shaping both the committee’s direction and the future of policy governing growth management, state oversight, and local community development. The amended versions of the two bills reflect starkly different origins: one developed in collaboration with planning practitioners, the other advanced by proponents of a uniform planning approach,

already possible, that overlooks the contextual factors and historical evolution of local governance and shoves a single approach toward planning onto all communities.

The committee’s approach to this work session appeared to reflect a predetermined outcome, masked by a carefully staged public performance. Committee chairs restricted participation to only the co-sponsors of LD 1940, repeatedly denying requests to hear from the Maine Office of Community Affairs and the Maine Association of Planners—despite their clear relevance in distinguishing the key differences between the two bills.

In a particularly telling moment, the sponsor of LD 1751, who was attending a medical appointment, joined remotely and requested that a knowledgeable individual present in the room be allowed to speak on her behalf regarding the amended language. That request was also denied.

The committee then moved swiftly to vote both bills—LD 1751 and LD 1940—out of committee as “ought to pass as amended,” despite the fact that the two bills were in clear conflict. The only motion for reconsideration came on LD 1751, with Representatives Malon (Biddeford), Yusef

*(continued on page 2)*

## Home Rule Isn’t Child’s Play

As described in the May 16 edition of the *Legislative Bulletin*, LD 1482, *An Act to Increase Access to Child Care for Maine Families*, sponsored by Speaker Fecteau (Biddeford), requires municipalities to allow childcare facilities within areas zoned for residential uses, despite several communities having already passed ordinances prohibiting such potentially incompatible land uses.

Since the Department of Health and Human Services oversees the licensing of childcare facilities, the bill was referred to the Health and Human Services (HHS) Committee, as opposed to Housing and Economic Development, which is the committee that traditionally vets land-use

*(continued on page 3)*

(Portland), and Julia (Waterville) reversing their positions to support LD 1940 (co-sponsored by the committee chairs) and to oppose LD 1751.

**Building Family Housing.** The cherry on the pro-nonresident-developer cupcake this week was the discourse during the final work session on LD 1829, *An Act to Build Housing for Maine Families and Attract Workers to Maine Businesses by Amending the Laws Governing Municipal Land Use Decisions*, sponsored by Speaker Fecteau (Biddeford) and now named, *An Act to Build Housing for Maine Families and Attract Workers to Maine Businesses by Amending the Laws Governing Housing Density*. While amended to remove the provision that sought to conflate the roles of two branches of government by establishing a statewide board to hear appeals of local planning board decisions on housing developments, the unanimously passed bill is a significant mandate on municipal government and a slap in the face to the work that

communities just accomplished.

Because it was unanimously passed, LD 1829 will go on the consent calendar unless the mandate preamble is applied. Putting the problematic and significant preemptions aside, both the committee and the sponsor seemed to diminish the impact of needing to adopt ordinances all over again, because making additional adjustments would result in a mere “update,” suggesting that costs would be discounted although the process used to amend and “update” ordinances are the same.

More egregiously, the sponsor and supporters—including former legislators who provided text message testimony to the same committee through the sponsor—sought amendments to municipal ordinances, required to be amended under the recently enacted provisions from the notorious LD 2003, also sponsored by Speaker Fecteau, that they did not like. To add insult to injury, the text message testimony was provided after denying members of the public an opportunity to provide

information on the two bills discussed just previously. The amended version of the bill is truly nothing more than a value judgement on communities that certain representatives do not live in supported by those who desire to interrupt the protections the adopted ordinances provide.

While the list is not exhaustive, the amended version of LD 1829 introduces extensive municipal preemptions and requirements, including but not limited to: (1) barring municipalities from applying National Fire Protection Association standards to accessory dwelling units (ADUs), even though single-family homes remain subject to them; (2) including units attached to multi-unit structures, shifting from a definition based on expansion to one of reclassification; (3) requiring municipalities to permit additional floors on affordable dwellings, regardless of whether local fire departments have the equipment to reach those floors; (4) mandating subdivisions of up to four units per lot (served by water and sewer) without review, exempting the first two units from lot coverage calculations, and capping minimum lot sizes and setbacks in growth areas; (5) mandating training for planning boards while simultaneously removing their authority to review certain development proposals; (6) prohibiting municipalities from requiring ADUs to be on owner-occupied properties—compromising a key safeguard against short-term rental conversions and second-home dominance and restricting local ability to regulate rental durations for ADUs; and (7) requiring needed ordinance amendments to be completed by July 1, 2027.

Despite the public hearing testimony from the State Fire Marshal highlighting a viable collective path to

---

## **To Quote Mariah Carey...“It’s Time!”**

With the Legislature’s focus on a June 18 adjournment date, bills are quickly moving through the engrossment and enactment processes. As a result, this will be the last *Legislative Bulletin* of the 2025 session. While we understand this is tremendously upsetting news, please do not fret. We will continue to post an updated LD List on the website every Friday until the end of the session, detailing all bills of municipal interest with their latest dispositions.

Additionally, over the next several weeks MMA staff will be communicating with town and city leaders via

action alerts providing updates on key initiatives of municipal importance. These email alerts will also include a word or two encouraging municipal officials to reach out to House and Senate members to inform them of how their decisions impact the communities they represent. Your ongoing conversations with state leaders are a vital part of MMA’s advocacy efforts.

Thank you for your ongoing support. Please look to the July edition of the *Maine Town & City* for a comprehensive recap of the session, including a summary of all recently enacted legislation.

*(continued on page 3)*

---

## Preemption of Home Rule is Community Theft .....cont'd

adoption of a Maine residential sprinkler standard that balances cost and safety, enabling general contractors to install systems that protect residents and firefighters alike, the committee failed to meaningfully address fire safety concerns. Whether by omission or indifference, the result undermines both public safety and the operational capacity of local fire services.

It is important to note that mandates enacted without adherence to constitutional requirements—specifically, the failure to fund 90% of the actual cost or to override that funding requirement with a two-thirds vote of both legislative chambers—are, by definition, voluntary for municipalities to implement. Despite this, municipal officials often feel compelled to comply with such mandates, even when the Legislature has not met its legal

or fiscal obligations.

If mutual respect between state and local government cannot be demonstrated this session, municipalities may need to reevaluate their automatic acceptance of newly enacted laws following adjournment. Compliance should not be assumed when the process itself lacks transparency and funding.

Municipal officials are strongly encouraged to meet directly with their local legislators—face-to-face—if they have concerns about the bills discussed in this article or to make phone calls. Written testimony and emails are too often overlooked, while public comment is frequently minimized. It is time to raise the volume and increase the pressure. A clear, united response from local leaders may be the only way to cut through the fog of disengagement and restore accountability.

---

## Home Rule Isn't Child's Play.....cont'd

bills. During a work session held last Thursday, the HHS committee voted unanimously in support of an amended version of LD 1482.

Sadly, the amendments to the bill do not address municipal concerns regarding the unintended consequences that result when land use and zoning is determined by a one-size-fits all state statute, rather than via ordinances developed and adopted by the community's residents, which are at times informed by a state certified comprehensive plan. Also falling by the wayside were concerns that the bill's preemption of home rule authority could increase the costs of providing municipal services, including managing the public relations issues that can occur when incompatible land uses are authorized to collocate. Adding fuel

to the fire, while a preliminary fiscal impact statement provides \$30,000 for department system upgrades, no allowance is made for technical or financial assistance to municipalities that will now be required to amend comprehensive plans and land use ordinances.

With a unanimous committee report, it is unlikely that a floor debate will occur, and this bill will be enacted under the hammer.

However, municipal officials who are troubled by the growing number of proposals seeking to erode local decision-making authority should contact members of the House and Senate to ensure the municipal perspective on this issue is understood by all legislators and not only those serving on committees of jurisdiction.

## RG Is Moving On...

It is with mixed emotions that the advocacy team announces that Rebecca Graham, Senior Legislative Advocate, will end her eight-year career with MMA on June 25 to join the Maine State Police as Director of Policy, FOAA and Legislative Affairs. The advocacy team, as well as the greater MMA family, will miss her sense of humor, dedication to the association and members, hard work, and highly entertaining and informative contributions to the *Legislative Bulletin*.

While she may be leaving MMA, Rebecca's municipal roots run deep, as she will continue to serve on the Edgecomb Planning Board. Please join us in wishing RG the best of luck with her new adventure.

---

## Environmental Exposures

While we all look forward to working and playing outdoors, it also brings some unwelcome aspects including ticks, hazardous plants and our new friend the brown-tail moth. As spring arrives, the insects will be hatching and plants will be growing, but with some simple steps we can enjoy the outdoors.

Some simple precautions will help you avoid contact with insects and insect borne illness:

- Avoid walking through wooded and brushy areas with tall grass and leaf litter.
- Dress Appropriately: Wear light-colored long pants tucked into socks or boots.
- Use bug and tick repellents. When using repellents always follow product directions.
- Consider using products that contain permethrin to treat clothing and gear. Do not apply permethrin directly to your skin.

### Avoiding Exposures to Hazardous Plants

- Familiarize yourself to the area and what flora you might encounter.
- Never touch plants and then touch your mouth, nose, eyes or any open wounds.
- Dormant plants can still cause a rash.
- If in doubt avoid contact.

## In Your Inbox

MMA Risk Management Services invites you to participate in the **Workers' Compensation Safety Incentive Program**. The Workers' Compensation Safety Incentive Program (WCSIP) is an exclusive cost saving tool for MMA Workers' Compensation Fund Members. Enrollment in WCSIP has increased to 140 participants, and the annual total credit savings for those participants was \$1,936,648 in 2025. If you have not joined this program and realized savings for your entity, now is the time. We encourage you to review this program and see how simple it is to participate and how fast you can start saving money for your community. All that you need to do to join WCSIP is to send us:

1. **The Acknowledgment on or before July 1, 2025.**
2. **The Resolve is due on or before August 1, 2025.**
3. **The Verification for Tier Assignment form will due to us on or before September 1, 2025**
4. **Look forward to the savings to come!**

Each qualifying member may receive an incentive credit up to 10%. The program is tiered into three levels based on documented performance which provide associated credits of:

Tier I.....	5%
Tier II.....	7.5%
Tier III.....	10%

The goals of this program are to provide financial rewards for safety while reducing the incidence of injury and illness throughout the operations and improving overall safety in the work environment. To download the forms or to obtain complete program details please select the following link: [Save with WCSIP!](#)

## This issue:

- Environmental Exposures
- In Your Inbox WCSIP
- Self Ergonomics Tool

**MAINE MUNICIPAL ASSOCIATION  
RISK MANAGEMENT SERVICES**

## New **NEOGOV** Ergonomic Assessment Tool

MMA's Online University now has a new tool in the proverbial toolbox which you may find useful – an Office Ergonomic Self-Assessment Program. The Ergonomic Self-Assessment helps the user determine if their chair, keyboard, mouse and monitor are a good fit or if they need to make some adjustments and changes to their set up.

Users should be able to move through the interactive program in less than half an hour as the program both informs and prompts users in the best way to adjust their workstation. Upon completion a report is generated listing out areas which may need to be corrected.

Loss Control Consultant Jason Johnson has used the program several times.

"I really like this program as it covers all of the bases in an easy-to-understand manner," says Johnson. "I could see Members using this program as a pre-screening tool to see if their employees have any potential problems and then following up with a face-to-face assessment if needed."

To use the Office Ergonomic Self-Assessment tool, log on to NeoGov- On Line University, access the course catalog, search for "Office Ergonomics. - Self Assessment" and enroll.

**Grid Resilience Webinar: Municipal Role in Grid Planning**  
**Thursday, June 26 | 10:00 AM –11:30 AM**

**GPCOG (Greater Portland Council of Governments)** and **Southern & Midcoast Resilience Coordinator Collaborative (SMRCC)** invite municipal staff, elected officials, and resilience committee members to an engaging webinar on the critical role municipalities play in Maine's grid resilience.

Learn how local governments can influence regional grid planning to support a more reliable, sustainable energy future. The session will feature experts from the **Acadia Center** and other leading planning organizations, and will highlight key strategies, common challenges, and real opportunities for municipal leadership in grid planning.

## Local Leads the Way to Introduce New Climate Action Toolkit

**Local Leads the Way**, a monthly Zoom gathering hosted by **A Climate to Thrive (ACTT)**, supports Maine communities in advancing inclusive, solutions-focused climate action. At the group's next session, ACTT will unveil its new Community-Driven Climate Action Toolkit—a resource designed to help communities take meaningful steps toward local climate resilience. Learn more on the **Local Leads the Way webpage**.

## CRP Announces Expanded List of Eligible Community Actions

The CRP (Community Resilience Partnership) has released an updated **List of Community Actions** aligned with the **Maine Won't Wait 2024** recommendations. The List covers all no-match **Community Action Grant** activities that communities may apply for and includes new actions related to: materials management (waste reduction and diversion); land use strategies that reduce emissions and build resilience, additional community resilience measures, and more. A total of 96 actions are now eligible for Community Action Grant funding. **DOWNLOAD** the updated list.

*Greater Portland Council of Governments*

# Community Resilience Partnership

Working to help Maine communities reduce emissions and prepare for the effects of climate change.

## New Round of **Community Action and Service Provider Grants** Now Open

Communities enrolled in the Community Resilience Partnership (or those that will be enrolled by the time of submission) are eligible to apply for **Community Action Grants**—offering up to \$75,000 for individual communities and up to \$175,000 for regional collaborations. Funding supports projects that reduce emissions, improve energy efficiency, and strengthen local resilience. No local match is required for projects selected from the CRP's **List of Community Actions**. **Applications are due August 29.**

**Service Provider Grants** are available to organizations that support communities in advancing local climate action. Eligible applicants include regional planning organizations, councils of governments, county governments, academic institutions, cooperative extension programs, nonprofit organizations, and for-profit enterprises. Two tracks are available:

- **Track 1:** Assist communities with enrollment in the Community Resilience Partnership and identification of priority climate and energy projects.
- **Track 2:** Support communities in conducting vulnerability assessments to understand climate risks and define resilience priorities.

Applicants may request up to \$10,000 per community, with additional funds available for small or high-vulnerability communities. A 15% cost share is required (in-kind contributions allowed).

**Applications are due August 1.**

**Informational webinars** for both grant programs will be held on **June 12 beginning at 10:00 AM.**

## Waste Diversion Grants

The **Maine Solid Waste Diversion Grant Program** provides grants to both public and private entities for project initiatives, program improvements, and activities that support the diversion of solid waste from disposal. Projects can include activities such as diversion education, food composting or donation programs, and recycling workshops. Communities enrolled in the **CRP** may want to consider a Waste Diversion Program project that leverages a Community Action Grant Proposal from the CRP's **List of Community Projects** that aligns with action E12 – "Develop and implement targets, plans, and actions for waste diversion). **Proposals are due June 13.** Download the full Request for Proposals **HERE**.

## Three Sources of Funding for Conservation Projects

The **Maine Natural Resource Conservation Program (MNRCP)** provides grants for projects that restore, enhance, and protect high priority aquatic resources throughout Maine. MNRCP can provide funding for land acquisition, closing costs, restoration site selection, project design, construction, monitoring, and long-term management. **Letters of Intent are due June 26.** Learn more **HERE**.

**Land for Maine's Future (LMF) Public Access to Maine Waters Fund** helps municipalities, nonprofits, and land trusts purchase access rights on small parcels of land to create or enhance access points to lakes, ponds, rivers, and coastal waters. Projects can support facilities for trailered boats or small, hand-launched craft (canoes, kayaks), and that provide bank fishing, swimming, clamming, worming, or other water contact opportunities. Access is primarily intended for general public use. Learn more **HERE**.

**The Maine Outdoor Heritage Fund (MOHF)** provides grants to nonprofit organizations, municipalities, and educational institutions for projects that support conservation of wildlife and fisheries habitat, the acquisition and management of public lands, and natural resources education. To apply, applicants must first **submit a Summary Application Form by July 15. Full proposals are due August 20, and final proposals are due September 1.** Learn more **HERE**.

Check out our list of current grants for your climate project. Contact us to discuss funding opportunities.

[Apply for the Grants Now!](#)

In mid-May, Governor Mills announced a leadership change at the **Governor's Office of Policy, Innovation and the Future** (GOPIF) – the office responsible for the CRP (**Community Resilience Partnership**). Hannah Pingree stepped down from her 6+ years of service as GOPIF's Director. **Sarah Curran** was appointed the new Director. We're grateful to Hannah for her leadership—during her time at GOPIF, including helping to establish the CRP and the **Maine Climate Council**, as well as moving important bipartisan legislation forward on climate, housing, and emergency planning. We're excited to see Sarah Curran step into the role of Director. Sarah has been a key contributor to GOPIF's climate planning and community programs since its start in 2021, and we're looking forward to what's ahead for CRP communities under her leadership. Read more **HERE**.

## June Reading: *A Plan for Infrastructure Resilience*

The **Infrastructure Rebuilding and Resilience Commission** has finalized Maine's first Plan for Infrastructure Resilience. The final plan builds off of the Commission's November 2024 Interim Report and lays out steps for moving adaptation and mitigation resilience projects forward in the face of storms and climate-related impacts. Download the Final Report **HERE**.

## BATH HERITAGE DAYS

### BE A FRIEND - SHOW YOUR SPIRIT

THE SPIRIT OF BATH - CELEBRATE WHO WE ARE!

#### Support Bath Heritage Days as a Friend-Level Sponsor

2025 Parade & Festival Theme: The Spirit of Bath – Celebrate Who We Are!

**Pledge to be a FRIEND** of Maine's most cherished summer tradition—Bath Heritage Days and Independence Day Parade. This year's theme, "**The Spirit of Bath – Celebrate Who We Are,**" is a tribute to the people, stories, and traditions that make our midcoast community so special.

From shipbuilders and artists to educators, small business owners, and the generations of families who call this place home, Bath's spirit is truly worth celebrating. **As a Friend-Level Sponsor, your support keeps this volunteer-driven event robust, inclusive, gate-fee-free, and full of local pride.**

#### Friend-Level Sponsorship – \$350

As a Friend of Bath Heritage Days, you'll receive:

- Recognition on our website and social media
- Recognition on the Waterfront Stage Screen between free music events
- A social media share of your choice during the summer season (*business sponsors only*)
- The satisfaction of supporting a beloved community tradition that brings joy to thousands

**Your FRIEND-ship matters!** Whether you're a long-time resident, a local business or group, or someone who simply loves the Bath area, show your community spirit with a tax-deductible donation, and celebrate the "Spirit of Bath" with us at this year's festival.

Warm regards,

*Main Street Bath*

## ABATEMENT REQUEST

BURGESS, THOMAS

34 HIDDEN COVE ROAD (11R-023-C)

LAND: 162,900 BLDG: 206,200

**Summary:** Mr. Burgess is requesting an abatement to the building (\$106,000) and land (\$100,000) values of his parcel at 34 Hidden Cove Road (11R-023). Mr. Burgess cites several reasons for this request, noting the quality of the land, restrictions on future land use from SICO, and provides many pictures disputing the quality of the building relative to our Town assessment.

### Here is a breakdown in assessment for 11R-023-C:

- 4 Acre Homesite (67,500 per acre, North End Road)
  - 10% Access Reduction
- 4 Acres Rear Land 1 (1,800 per acre)
- Site Improvement (13,500)

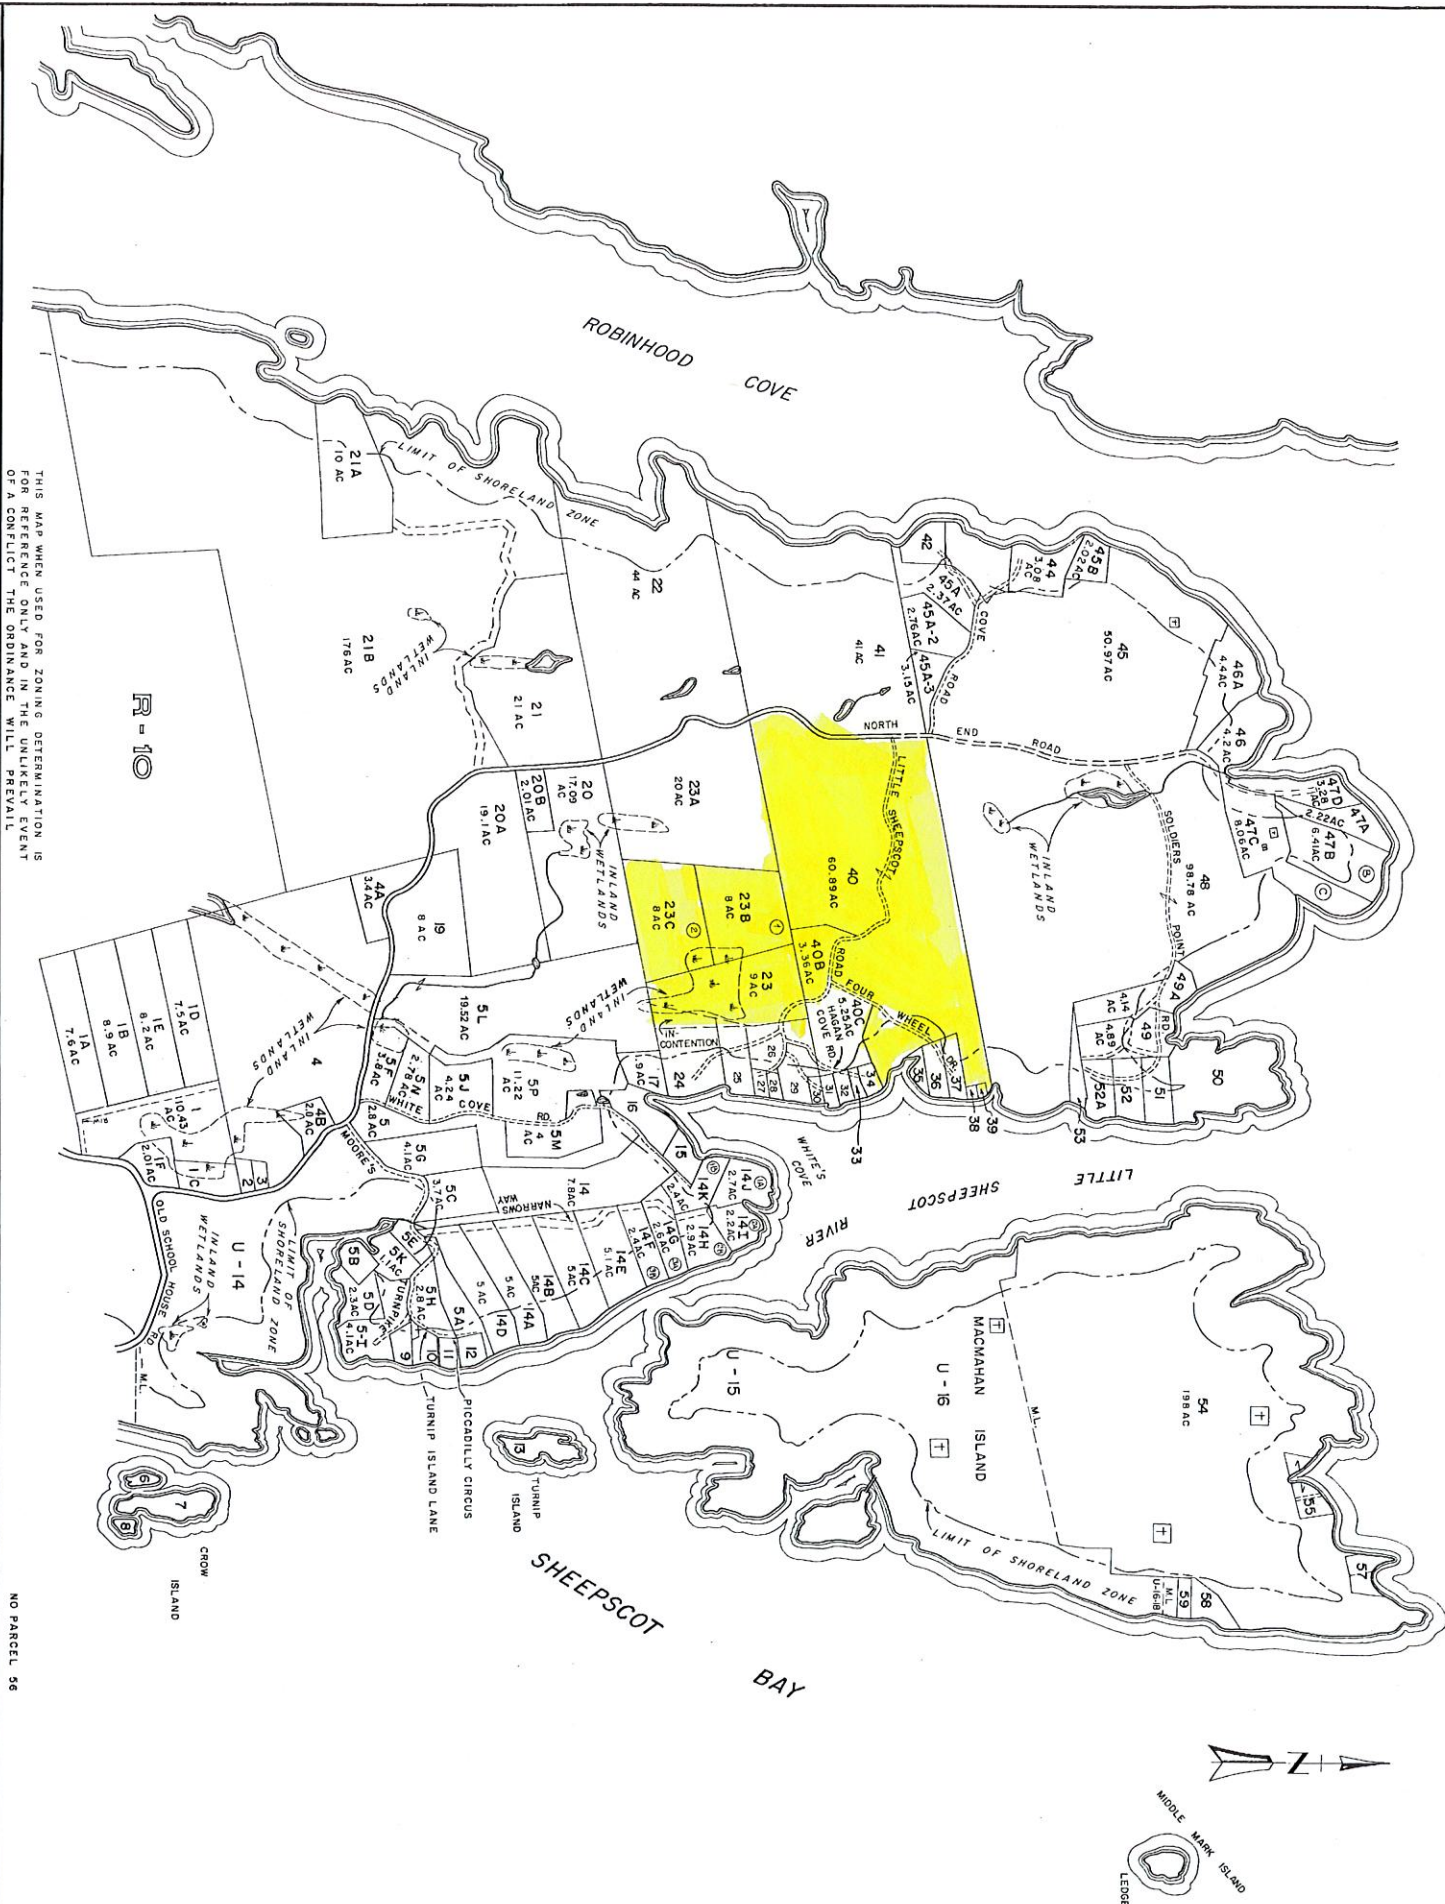

**Comparisons:** The Town Administrator compared this property to like properties. They are:

- NO STREET ADDRESS (11R-023) **LAND: 118,600 BLDG: 0**
  - 4 Acres Homesite 67,500 per acre, North End Road
  - 2 Acres Rear Land 1 (1,800 per acre)
  - 3 Acres Wasteland (90 per acre)
- 23 Hidden Cove Road (11R-023-B) **LAND: 148,900 BLDG: 185,600**
  - 4 Acre Homesite (67,500 per acre, North End Road)
  - 4 Acres Rear Land 1 (1,800 per acre)
  - Site Improvement (13,500)
  - Heat & Basement Reductions
- 71 Little Sheepscot Road (11R-040-B) **LAND: 161,500 BLDG: 350,700**
  - 3.36 Acres Homesite (67,500 per acre, North End Road)
  - Site Improvement (13,500)
  - Basement Reduction
- 70 Little Sheepscot (11R-040) **LAND: 810,700 BLDG: 242,600**
  - 1 Acre Homesite (363,000 per acre, Little Sheepscot)
  - 1 Acre Rear Land 1 (5,610 per acre)
  - 10 Acres Rear Land 2 (2,750 per acre)
  - 48.89 Acres Rear Land 3 (660 per acre)

NOTE: This property is to show that while on the same map (and same part of the map) that valuations could be significantly higher.

**Recommendation:** In comparing the several properties, I can see consistency in the assessments. However, based on the unique circumstances outlined by Mr. Burgess, I encourage forwarding this abatement application on to our Assessing Agent for a site visit and further review.

## **ABATEMENT REQUESTS**

.....  
APPALACHIAN MOUNTAIN CLUB

JEWETT ROAD (01R-009) & BEAL ISLAND (01R-034)  
.....

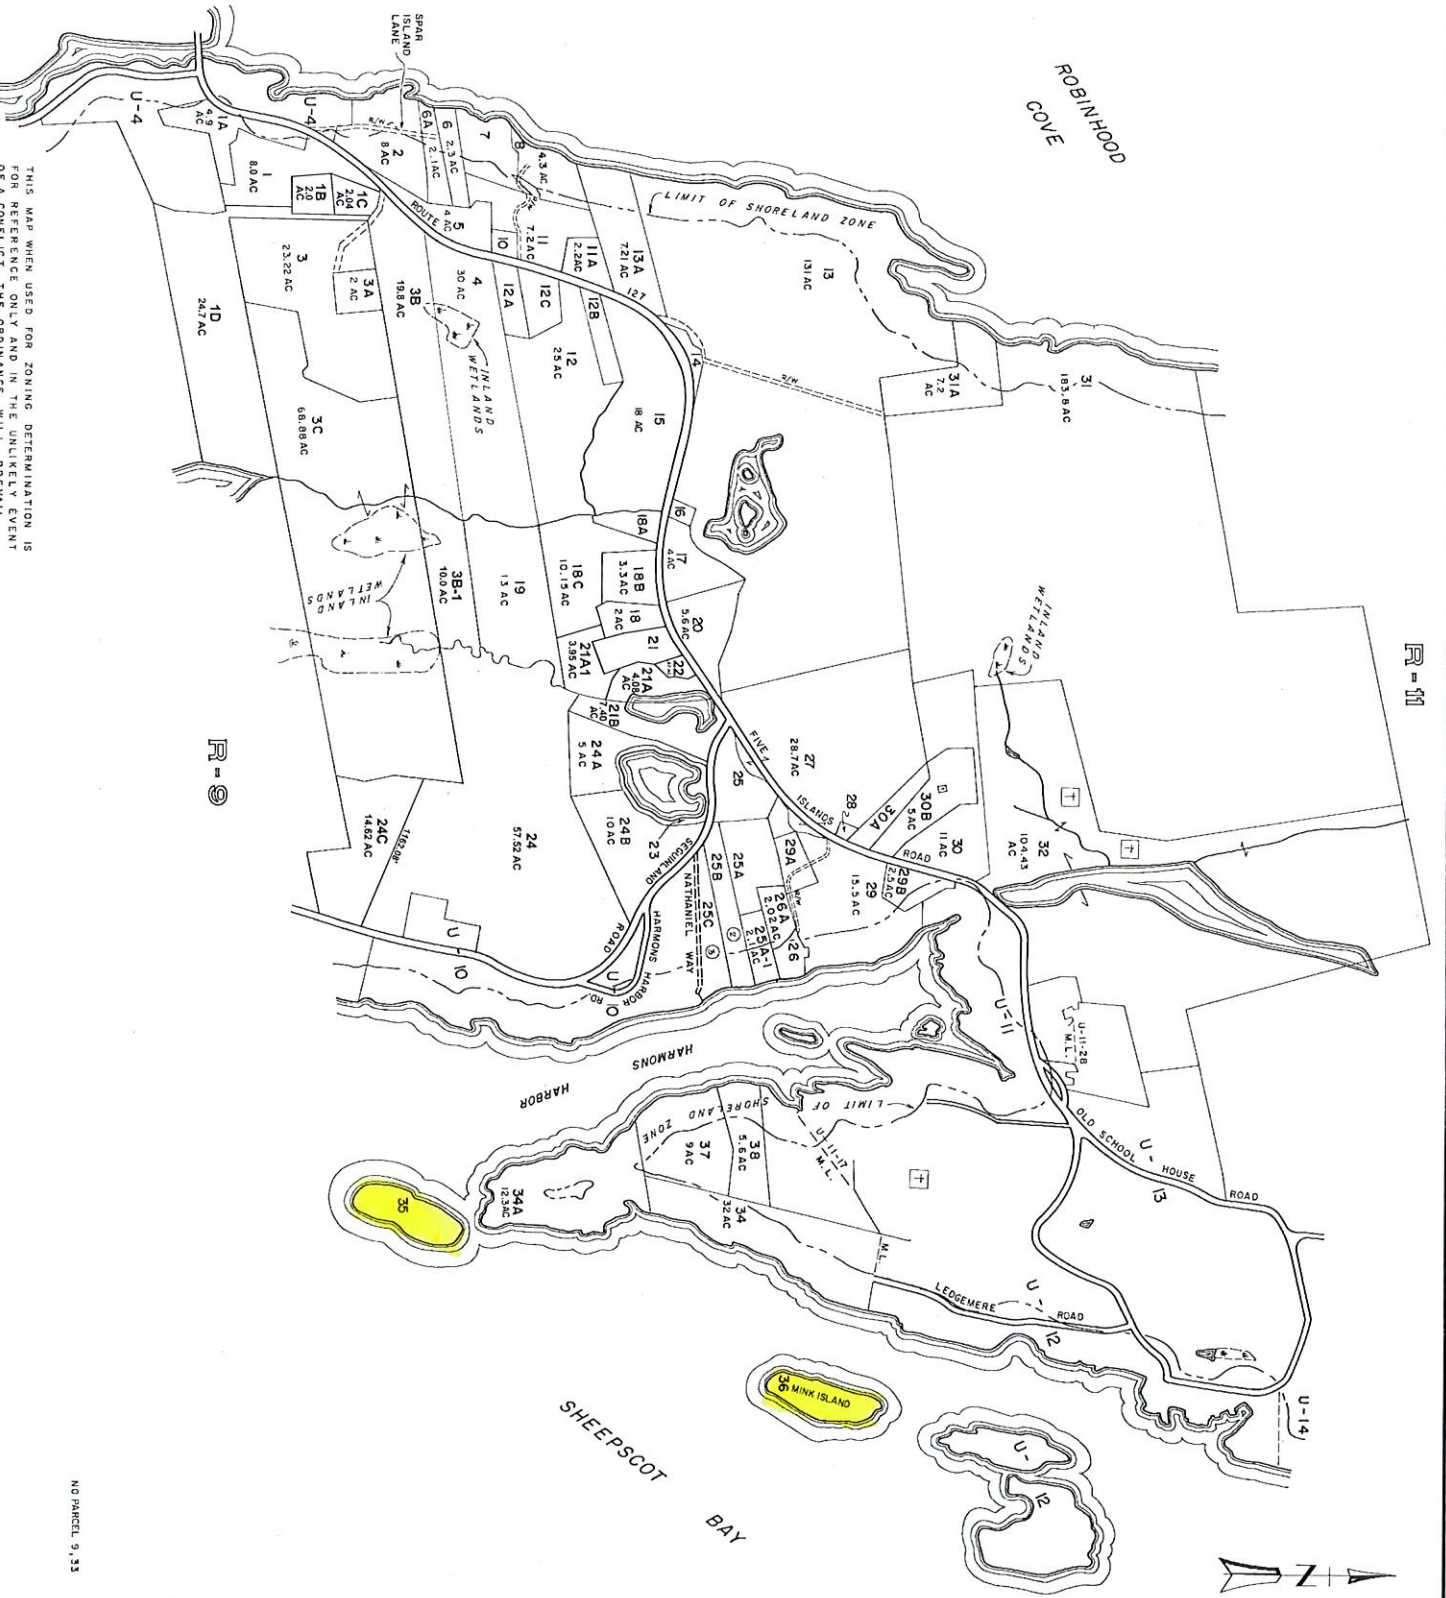

**Summary:** The Appalachian Mountain club has designated Francis “Frank” Polito as their Spokesperson for these two abatements - one for their “mainland” property on Jewett Road and one for Beal Island. Relative to the property on Jewett Road (01R-009), they are requesting a \$150,000 reduction in land valuation and a \$100,000 reduction to the building valuation, citing a multitude of factors. Regarding the Beal Island property (01R-034) , they are requesting a \$100,000 reduction to their land valuation.

**Recommendation:** In reviewing the abatement application and files for 01R-009, I do find several inconsistencies. For instance, this property’s condition does not reach above average. Nor does AMC have a natatorium. My recommendation is to send this abatement on to the Assessing Agent for a site visit and further review. Regarding Beal Island, I recommend the Assessing Agent also review relative to the other offshore islands for consistency.

THIS MAP WHEN USED FOR ZONING DETERMINATION IS  
FOR REFERENCE ONLY AND IN THE EVENT  
OF A CONFLICT THE ORDINANCE WILL PREVAIL.

## **ABATEMENT REQUEST**

KATHERINE CARPETENER (POA and Co-Conservator for Janice Carpenter, Personal Representative for the Estate of Sam and Minna Pachowsky)

2 BAYBERRY LANE (09U-001)

LAND: 1,361,200 BLDG: 136,400

**Summary:** Ms. Carpenter is filing this abatement on behalf of her mother, Janice. The Carpenters are seeking a land reduction of \$536,200 and a building reduction of \$31,400. She cites a series of factors, noting significant building degradation. Ms. Carpenter also cites land degradation following the January 2024 storms. The Carpenter application also flags future concern on this parcel's proximity to flooding.

### **Initial Findings:**

- This property is a part of the "Prime Frontage" neighborhood.
- The property is categorized as "average" in condition.
- The property currently has a reduction for its basement.
- Structure was built in 1970.

Further, **here is a breakdown in assessment for 09U-001:**

- 1.05 Acre Homesite (715,000 per acre, Prime Frontage)
- Site Improvement (22,000)
- **Reductions to note:**
  - There is a further \$14,256 reduction for her basement.

**Comparisons:** The Town Administrator compared this property to like properties. They are:

- 4 Bayberry Lane (09U-002) **LAND: 1,342,200 BLDG: 480,600**
  - 1.04 Acres Homesite (715,000 per acre, Prime Frontage)
  - Site Improvement (22,000)
  - Heat & Basement Reductions
  - Built in 1973.
- 6 Bayberry Lane (09U-003) **LAND: 1,168,400 BLDG: 22,600**
  - 0.69 acres Homesite (715,000 per acre, Prime Frontage)
  - Site Improvement (22,000)
    - Note: 25% Reduction due to restrictions
  - Heat & Basement Reductions
  - Built in... "Old"
- 811 Indian Point Road (09U-009) **LAND: 3,119,300 BDLG: 647,500**

- 5.5 Acres Homesite (715,000 acre, Prime Frontage)
- 3.1 Acres Rear Land 1 (11,000 per acre)
- Site Improvement (22,500)
- Built in 1927. Condition – Good.
- Basement Reduction
- 192 Loop Road (08U-006) **LAND: 1,220,200 BLDG: 160,000**
  - 0.77 Acres Homesite (715,000 per acre, Prime Frontage)
  - Site Improvement (15,000)

**Recommendation:** Based on comparisons of data for similar properties, I do find consistency in valuations. However, the degradation of the building and reported land damages warrant a site visit and final determination from the Assessor. Therefore, I recommend the Board forward this abatement on to Bill Van Tuinen for further review.
