I. FOR STRUCTURE MOUNTED SOLAR ENERGY SYSTEMS

We, the Applicant (or Applicant's Representative), have visually inspected the roofing system and the underlying structural system where the Solar Energy System is to be installed. From our visual inspection, the existing roofing and structural systems appear adequate to support the addition of the proposed Solar Energy System, including any additional loads, such as snow.

III. MAINE'S NATURAL RESOURCE PROTECTION ACT

The State's Natural Resource Protection Act (NRPA) establishes a set of *Protected Natural Resources* which includes coastal sand dune systems, coastal wetlands, significant wildlife habitat, fragile mountain areas, freshwater wetlands, great ponds and rivers, and streams or brooks. A permit is required when an "activity" will be located in, on or over any protected natural resource, or will be located adjacent to a coastal wetland, great pond, river, stream or brook or significant wildlife habitat contained within a freshwater wetland, or certain freshwater wetlands. These permits are issued by the State Department of Environmental Protection. Applicants for Building Permits must obtain all required NRPA permits from the State prior to submitting the Building Permit Application.
